Experience

Full Stack Developer, Xtin Capital (xtincapital.com) 2025 – Present · Remote

- Architected and scaled a production fintech platform (React, Node.js, Express, PostgreSQL); integrated 10+ APIs, improving response efficiency by 25%.
- Led a team of 5 developers via Agile sprints and automated workflows with n8n, cutting manual processing by 40%.

Full Stack Developer, Wealth Shala (wealthshala.com) 2025 – Present · Remote

- Developed a responsive financial-literacy platform, cutting page load time by 20% and improving UI responsiveness by 40%.
- Launched the platform to 100+ users and tuned GoDaddy server configurations for reliable deployments.

Projects

GigShield – AI Parametric Income Insurance *React, Three.js, Express, Supabase* [Live](#) · [Code](#)

- Designed an AI parametric income-insurance platform that auto-pays gig workers across three verified disruption signals.
- Engineered location-based eligibility logic on a Supabase-backed Express API, eliminating manual claims processing.
- Crafted an immersive 3D interface with Three.js, React Three Fiber, Leaflet maps, and GSAP animations.

Internal GPT – College RAG Helpdesk *React, Node.js, Supabase, RAG, OpenAI, Groq, pgvector* [Live](#) · [Code](#)

- Developed a full-stack RAG helpdesk delivering source-cited answers grounded strictly in admin-uploaded documents.
- Engineered a retrieval pipeline (extraction, chunking, semantic search, LLM generation) with OpenAI and Groq.
- Integrated pgvector for scalable, low-latency vector similarity search across large document sets.

CardBridge – Card Discount Marketplace *React, TypeScript, Supabase, PostgreSQL, RLS, KYC* [Live](#) · [Code](#)

- Launched a P2P marketplace linking discount seekers with cardholders via escrow-protected, fee-based transactions.
- Architected a database-enforced transaction state machine with an immutable event log for auditable order flows.
- Implemented KYC with tiered limits, disputes, and an admin panel, secured by Supabase Row Level Security.

NestFinder – Real Estate Platform *Next.js, Prisma, NextAuth, Stripe, Leaflet* [Live](#) · [Code](#)

- Delivered a full-stack Next.js real estate platform with property listings and interactive Leaflet maps.
- Integrated NextAuth authentication, Stripe payments, and automated PDF generation.
- Modeled properties and users with Prisma ORM and added AI-assisted property search.
