Summary

CS undergraduate who owns the full lifecycle of production software - design through deployment and operation - across AI/RAG systems, fintech platforms, and scalable full-stack architectures. Shipped and deployed live products across three developer roles, integrating third-party APIs and building GenAI-powered tools while leading a 5-person team through Agile delivery.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, Three.js, Chart.js

Backend: Node.js, Express.js, REST APIs, Microservices, JWT, OAuth2, n8n

Databases & Cloud: PostgreSQL, Supabase, MongoDB, Vercel, Render, Git, GitHub, CI/CD

AI/ML & Core CS: RAG, LLMs, OpenAI, Groq, Claude API, pgvector; DSA, OOP, DBMS, OS, Computer Networks, System Design

Problem Solving: 850+ LeetCode problems solved, 1450 contest rating (profile)

Testing: Unit Testing, Jest, Integration Testing

Experience

AI Intern, Berry Stenley (berrystenley.com) · New Delhi (Onsite)

Jun 2026 – Aug 2026

- Owned end-to-end deployment of an internal AI/RAG platform (SRM GPT) on Render and Supabase, and rebuilt an AI-education admin platform on Lovable AI with role-based access control.
- Engineered payment-gated resource delivery (Razorpay/PayPal verification) and secure superadmin approval workflows, working directly with the stakeholder from design through deployment.

Full Stack Developer, Xtin Capital (xtincapital.com) · Remote

Oct 2025 – Mar 2026

- Architected and scaled a production fintech platform (React, Node.js, Express, PostgreSQL), connecting multiple third-party APIs including payment gateways and financial data services.
- Led a team of 5 developers via Agile sprints and code reviews, and automated form handling, notifications, and data-sync workflows with n8n to reduce manual processing.

Projects

GigShield - AI Parametric Income Insurance *React, Three.js, Express, Supabase*

[Live](#) · [Code](#)

- Designed an AI parametric income-insurance platform that auto-pays gig workers across 3 verified disruption signals, eliminating manual claims processing.
- Engineered location-based trigger logic on a Supabase-backed Express API, paired with an immersive 3D landing experience built with Three.js and React Three Fiber.

Internal GPT - College RAG Helpdesk *React, Node.js, Supabase, RAG, OpenAI, Groq, pgvector*

[Live](#) · [Code](#)

- Built a full-stack RAG helpdesk with a 4-stage retrieval pipeline (extraction, chunking, semantic search, LLM generation) using pgvector for fast vector similarity search.
- Delivered source-cited, hallucination-resistant answers grounded strictly in uploaded institutional documents, reducing reliance on manual support lookups.

CardBridge - Card Discount Marketplace *React, TypeScript, Supabase, PostgreSQL, RLS, KYC*

[Live](#) · [Code](#)

- Rolled out a P2P marketplace with escrow-protected transactions, a 6-state auditable transaction state machine, and KYC/dispute controls secured by Row Level Security.
- Built an admin review panel with tiered trust limits and dispute resolution, supporting a fully auditable order flow for early users.

IntelliRideX - Autonomous Vehicles Vision Research *Python, TensorFlow, Deep Learning, Computer Vision, OpenCV*

[Live](#) · [Code](#)

- Researched autonomous-vehicle navigation using deep neural networks for real-time object detection and path planning, applying computer vision (OpenCV) to build the perception stack.
- Trained and evaluated TensorFlow models for object detection and decision-making, translating deep learning research into a working self-driving perception pipeline.

Education

B.Tech, Computer Science & Engineering – SRM Institute of Science and Technology, Chennai

2023 – 27

CGPA: **9.50/10.0**

Senior Secondary (Class XII), CBSE – Adarsh Jain Dharmic Shiksha Sadan, Najafgarh · **87.2%**

2021 – 22

Secondary (Class X), CBSE – Bal Mandir Sr. Sec. School · **93.6%**

2019 – 20

Achievements & Certifications

- Winner, Brand Revamp** – Innovate X SRM 2024.
- NPTEL Human-Computer Interaction** – Scored 90/100 with Gold Medal (IIT Delhi).
- Lead Student Coordinator** – International Conference on Viksit Bharat 2047, SRM.
- Campus Mantri** – GeeksforGeeks Campus Ambassador for SRM (1 year).
- AI/ML for Geodata Analysis** – Indian Institute of Remote Sensing (IIRS), ISRO.
- Big Data & Data Science Bootcamp** – C-DAC Noida & SRM IST.
- Generative AI & Prompt Engineering Internship** (6 weeks) – IGDTUW & Sansoftech.
- DSA with Java (Alpha)** – Apna College.
- IBM Full Stack Cloud Developer Professional Certificate** – Coursera/IBM
