Professional Summary

Full-stack developer and Computer Science undergraduate (CGPA 9.50/10) who ships production software end to end — from AI-driven platforms and RAG systems to fintech marketplaces. Launched products to 100+ users, integrated 10+ third-party APIs, and improved performance by 20–40% across two developer roles, while leading a 5-person team through delivery. Fluent across the React, Node.js, and PostgreSQL stack, with a growing focus on applied AI and clean, scalable architecture.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, GSAP, Three.js, React Three Fiber, Zustand, TanStack Query, Chart.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication, OAuth2, NextAuth, Prisma ORM, Stripe & Razorpay Payments, n8n Automation

Databases: PostgreSQL, Supabase, MongoDB, MySQL, Row Level Security, Database Triggers, Query Optimization

Cloud & Tools: Vercel, Render, Railway, GoDaddy, Git, GitHub, CI/CD, Leaflet, SEO (JSON-LD)

AI/ML: RAG Pipelines, Large Language Models (LLM), OpenAI, Groq, Claude API, Prompt Engineering, Vector Embeddings, pgvector

Computer Science: Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Practices: Agile, Scrum, Code Review, Unit Testing, Responsive Design, System Design, Team Leadership

Professional Experience

Full Stack Developer

2025 – Present

Xtin Capital (xtincapital.com)

Remote

- Architected and scaled a production fintech platform end-to-end using React, TypeScript, Node.js, Express, and PostgreSQL, deployed on Vercel and Render.
- Integrated 10+ third-party REST APIs including payment gateways and financial data services, improving response efficiency by 25%.
- Led a cross-functional team of 5 developers, assigning technical roles, running Agile sprints, and conducting code reviews to improve delivery efficiency.
- Engineered n8n automation workflows for form handling, email notifications, and data sync, reducing manual processing effort by 40%.

Full Stack Developer

2025 – Present

Wealth Shala (wealthshala.com)

Remote

- Architected and developed a responsive financial literacy platform using React.js, TypeScript, Node.js, and Express with a user-centric design system.
- Reduced page load time by 20% via code splitting and lazy loading, and improved UI responsiveness by 40% through optimized rendering and state management.
- Launched the platform to 100+ users and optimized GoDaddy server configurations for smoother, more reliable deployments.
- Crafted interactive UI animations and micro-interactions with Tailwind CSS and Framer Motion to increase user engagement.

Team Leader, Ambassador Program

2024 – 2025

Viral Fission (Certificate)

Remote

- Led and coordinated 95+ campus ambassadors across distributed teams, overseeing daily task execution and campaign operations.
- Increased campaign effectiveness by 25–30% through consumer data analysis and faster team response cycles.
- Established structured communication and task-tracking workflows to improve coordination, accountability, and execution quality.

Projects

GigShield – AI Parametric Income Insurance

[Live](#) · [Code](#)

React, Three.js, React Three Fiber, Express, Supabase, GSAP, Leaflet

- Designed an AI-powered parametric income-protection platform for gig delivery workers that triggers automatic, instant payouts across three verified disruption signals (heavy rain, hazardous air quality, platform outages) with no claims processing.
- Engineered location-based trigger logic on a Supabase-backed Express API with an immersive 3D landing experience using Three.js and React Three Fiber.

Internal GPT – College RAG Helpdesk

[Live](#) · [Code](#)

React, Vite, Node.js, Express, Supabase, RAG, OpenAI, Groq, pgvector

- Developed a full-stack Retrieval-Augmented Generation helpdesk where admins upload institutional documents and users receive accurate, source-cited answers drawn strictly from uploaded data.
- Orchestrated the document pipeline (extraction, chunking, semantic retrieval, LLM answer generation) with OpenAI and Groq, using pgvector for scalable vector similarity search.

CardBridge – Card Discount Marketplace

[Live](#) · [Code](#)

React, TypeScript, Supabase, PostgreSQL, Row Level Security, Escrow, KYC

- Launched a peer-to-peer marketplace connecting discount seekers with cardholders, featuring escrow-protected transactions and a fee-based fulfillment model.
- Devised a database-enforced transaction state machine with an immutable event log, KYC verification, tiered limits, dispute resolution, and an admin review panel, secured with Supabase Row Level Security.

NestFinder – Real Estate Platform

[Live](#) · [Code](#)

Next.js, React, Prisma, NextAuth, Stripe, Leaflet, TypeScript

- Delivered a full-stack real estate discovery platform with interactive Leaflet property maps, NextAuth authentication, Stripe-powered payments, and PDF generation.
- Modeled property and user data with Prisma ORM over a relational database and added AI-assisted features for smarter property search.

SkyWings – Airline Reservation System

[Live](#) · [Code](#)

React, Node.js, Express, PostgreSQL, Supabase, Row Level Security, PDF

- Developed a full-stack airline booking platform with dynamic flight search, interactive seat selection, and automated PDF boarding-pass generation.
- Secured booking logic with Supabase PostgreSQL, Row Level Security policies, and database triggers managing authentication and transactions.

IntelliRideX – Autonomous Vehicles Vision Research

[Live](#) · [Code](#)

Python, TensorFlow, Deep Learning, Computer Vision, OpenCV, Neural Networks

- Researched autonomous-vehicle navigation using deep neural networks for real-time object detection, path planning, and decision-making.
- Applied computer vision (OpenCV) and machine learning algorithms to build the perception stack for self-driving systems.

InternX – Internship & Hackathon Hub

[Live](#) · [Code](#)

React 19, Vite, Node.js, Express, Supabase, JWT, SEO

- Created an internship and hackathon discovery platform aggregating curated listings with search and filters, an SEO-optimized blog with JSON-LD schema, and full analytics tracking.
- Implemented an admin dashboard for CRUD operations and automatic cleanup of expired listings, backed by a Node.js/Express API and Supabase PostgreSQL.

SoleLux – Luxury Shoe E-Commerce

[Live](#) · [Code](#)

React, TypeScript, Vite, Express, Supabase, Zustand, TanStack Query

- Shipped a luxury shoe e-commerce platform with a cinematic storefront, catalogue search and filters, cart/wishlist, and checkout supporting COD, Razorpay, and UPI.
- Implemented an admin/operator dashboard for product CRUD, order management, and analytics, backed by an Express API and Supabase Auth, Storage, and PostgreSQL.

Education

Bachelor of Technology, Computer Science and Engineering

2023 – 2027 (Expected)

SRM Institute of Science and Technology

Chennai, India

- CGPA: 9.50/10.0.
- Coursework: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Machine Learning.

Senior Secondary (Class XII), CBSE – PCM with Computer Science

2021 – 2022

Adarsh Jain Dharmic Shiksha Sadan, Najafgarh

New Delhi, India

- Scored 87.2% with Physics, Chemistry, Mathematics, and Computer Science.

Secondary (Class X), CBSE

2019 – 2020

Bal Mandir Sr. Sec. School

New Delhi, India

- Scored 93.6%.

Achievements & Awards

- **Winner, Brand Revamp** – Innovate X SRM 2024. [Certificate](#)
- **NPTEL Human-Computer Interaction** – Scored 90/100 with Gold Medal (IIT Delhi). [Certificate](#)
- **Lead Student Coordinator** – International Conference on Viksit Bharat 2047, SRM. [Certificate](#)
- **Campus Mantri** – GeeksforGeeks Campus Ambassador for SRM (1 year). [Certificate](#)

Certifications & Training

- **AI/ML for Geodata Analysis** – Indian Institute of Remote Sensing (IIRS), ISRO. [Certificate](#)
- **Big Data & Data Science Bootcamp** – C-DAC Noida & SRM IST. [Certificate](#)
- **Generative AI & Prompt Engineering Internship** (6 weeks) – IGDTUW & Sansoftech. [Certificate](#)
- **DSA with Java (Alpha)** – Apna College. [Certificate](#)
- **Java, Python & Problem Solving (Intermediate)** – HackerRank. [Certificate](#)
