Education

Srm Institute Of Science And Technology, B.Tech.CSE	CGPA: 9.50/10.0	2023-27
Adarsh Jain Dharmic Sikhsha Sadan	Percentage 87.2	2021-22
Bal Mandir Sr. Sec. School	Percentage 93.6	2019-20

Skills

Languages: Java, Python, JavaScript	Tools: GitHub, Vercel, Render, GoDaddy, N8N
FrontEnd FrameWorks: HTML, CSS, React.js	BackEnd FrameWorks: Node.js, Express.js
Databases: Supabase, Postgres, SQL	
Key Concepts: Computer Networks, OOPS, Operating Systems, Data Structures and Algorithm	

Work Experience

1. Wealth Shala Full Stack Developer	Link
- Architected and developed a React.js and TypeScript web application, reducing page load time by ~20% and improving UI responsiveness by ~40%. - Launched platform to 100+ users and optimized GoDaddy server configurations, improving deployment efficiency.	
2. Xtin Capital Full Stack Developer	Link
- Architected & scaled the Xtin Capital platform to production, integrating 10+ APIs and improving response efficiency by 25%. - Led a team of 5 developers, assigning technical roles and managing sprint workflows to improve delivery efficiency. - Implemented Streamlined workflows using n8n for form handling & email notifications, reducing manual processing by 40%.	
3. Viral Fission Team Leader	Link
- Led a team of 95+ ambassadors, overseeing their daily tasks and ensuring efficient workflow execution. - Increased campaign effectiveness by ~25–30% through consumer data analysis, improving team response time.	

Projects

1. Airline Reservation System	Link
- Developed a Full-Stack Airline Reservation System featuring optimized flight search algorithms, an interactive 2D seat selection map, and automated PDF boarding pass generation. - Enhanced backend performance using PostgreSQL (via Supabase), implementing Row Level Security (RLS) policies and database triggers to reduce latency by ~30% and manage secure user authentication and booking logic.	
2. Sutan Legal Corp.	Link
- Built a legal platform using React.js, integrating directories and intake workflows, reducing onboarding time by ~15% and improving lead qualification efficiency by ~35%. - Designed a relational database schema to efficiently manage complex relationships between practice areas, attorneys, and case histories, handling 50+ relational tables and 10k+ records while maintaining data integrity.	
3. IntelliRideX - Autonomous Vision Research Platform	Link
- Implemented dataset comparison modules (KITTI, Waymo, nuScenes), model performance dashboards, and real-time parameter tuning using React, Tailwind CSS, and Chart.js, supporting 3+ datasets and improving analysis efficiency by 30%. - Engineered a responsive interface enabling real-time parameter tuning, improving model experimentation speed by ~30%.	

Certification

NPTEL - Human Computer Interaction	Secured 90/100 score with Gold medal	Link
Workshop-cum-Internship – Generative Engineering & Prompt Design	IGDTUW & Sansoftech	Link
FutureSkills PRIME Project- C-DAC, NOIDA, NIELIT	Bootcamp on Big Data and Data Science	Link
Campus Mantri X Geek For Geeks	Campus Mantri for SRM - Completed 1 year	Link
International Conference for Viksit Bharat 2047	VBCB-2025	Lead Student Coordinator
Indian Institute of Remote Sensing (IIRS), ISRO	AI / ML for Geodata Analysis	Link
Innovate X SRM 2k24	Won Brand Revamp	Link
